WAGES OF COMMON LABOR

New Tork, Feb. 22.—The Association of Railway Executives today sent to the carriers a letter recommending that the matter of -_izing wages of common labor to lower tevels be left to the individual railroads to carry out in accordance with conditions prevailing in their lefter, signed by W. W. Atterbury, The letter, signed by W. W. Atterbury, ards.

The letter, signed by W. W. Atterbury, chairman of the labor committee, set forth that the carriers have complained that they had been crificized for not reducing the pay of their common or unskilled labor to wage levels prevailing in other industries.

Mr. Atterbury's letter said he had suggested to the railroad labor board that permission be granted enabling the carriers to use these prevailing rates as a minimura scale for railroad employment, but that the board decided on February 10 that this matter could be raised.

ment, but that the board decided on February 10 that this matter could be raised only as a result of negotiations between the roads and their employes.

To each individual carrier the letter left the determining of what the new wages should be, when they should be proposed and the naming of the classes of employes to be affected.

The procedure of establishing new wages for unskilled labor, it continued, "must be in strict accordance with the transportation act and decisions of the United States'illabor, beard."

The letter said that numerous compansions had indicated that prevailing rates.
